

Drain Box

Product NUMBER: EFCUST

Description:

The Layered Green Roof System aluminum edger is used to define and separate green roof areas from adjacent paving, vegetation-free zones, or parapets. To make installations easier, Square and Round Drain Boxes and Covers are available in each edger size. The Drain Box has a sturdy L-shaped profile, and a slotted wall to allow for water runoff.

- Engineered for use in green roof applications; can be used to retain green roof planting material, as well as, pavers for rooftop walkways.
- Applicable for both Intensive and Extensive Green roofs.
- Available in Mill or Black DuraFlex Finishes.
- Lightweight
- .250" Thick Exposed Top Lip

Installation:

- Install per manufacturer's recommended guidelines.

Storage:

- Store components in a dry area.

Precautions:

- Use caution when handling edging as it may be sharp.

LEED Information:

- Manufacturing Location: Holland, MI 49424
- Recycled Content: Post-Consumer 6%; Post-Industrial 49%.
- 100% recyclable.
