

Porcelain Pavers

Description:

Columbia Green’s Porcelain Pavers bring the look and beauty of stone, wood or other modern finishes to your amenity terrace in a wide range of colors and appearances. Our porcelain options mimic beautiful natural finishes while avoiding fading, staining and color changes. These provides stylish, options with the resilience and practicality of porcelain. These pavers come in both square and plank sizes to fit your project needs.

- Stain resistant
- Hard wearing & scratch resistant
- Frost proof
- Slip resistant
- Fade resistant
- Low maintenance
- Fireproof
- High load bearing
- Lighter than stone or concrete

Installation

- Install roof pavers on pedestals according to manufacturer's written instructions and approved shop drawings.
- Pavers that are cracked or damaged in any way should not be used.
- Set in place using placement methods that result in stable installation free from rocking using sound roof pavers with no edge or surface damage. Make final in-place height adjustments using manufacturer's furnished tool.

Storage:

- Protect products during shipping, handling, and storage to prevent staining, chipping, deterioration of components or other damage.
- Unload pavers carefully at job site so that no damage occurs to product.

Precautions:

- Wash exposed skin prior to eating, drinking or smoking and at the end of each shift.
- Use caution when cutting and laying product.
